Message

ood morning Happy Campers, welcome back to **Camp-We-Made-It** and we're into the second month already. "Who would have thought, eh?" Our January meeting was a movie night with an adventure/comedy movie titled Sahara. February will again be a movie night because of the iffy weather. At 256 (Chaleur) Wing, Bathurst, NB this point who knows we could have BBQ weather or a 300 (Remembrance) Wing, Granby, QC - formed pre-1948 polar vortex. The proposed movie will be *Harry* and the Hendersons, again an offbeat comedy. Un- 1948 fortunately we had to make do without popcorn since 301 (Albatross) Wing, Montreal, QC Cecile was not well (but everyone deserves a second chance.) If you were a fan of the old sci-fi movies of 1948 the 60's-70's vintage era, 2020s were always the future. Well here we are 'the future.' Looks much the same as before. I still haven't seen any people wearing togas and/or toting ray guns; if you've ever watched **Flash Gordon**, (if you know who he is you're past 39) just vacant looks, ear buds and e-bikes. But then 307 (Eagle) Wing, Pointe-aux-Tremblant, QC there are certain parts of downtown I don't visit.

Now that we've made it to the future let's have a peep 310 (Wilno) Wing, Montreal, QC back to see who is still in the food chain...

Not many I suspect. Which brings me to my favourite grouse now that the season for humility and penitence and hugs is concluded. As we continue our stroll on the deck of the Titanic, confident in the safekeeping of the future of our Organization, sometimes referred to as Wings, one can't help but wonder what the strange markings on the few lifeboats on the promenade marked *MAL* mean. Who gets to sit in those?

As March is on the horizon your Executive is looking at the pending membership dues increase decreed by our National Headquarters at the last NAGM and what to do about it. About 5 bucks — intrinsically this is not an issue. The questions that have been asked by some of our members are: Is there any direct benefit

#### Wing Mate February 2020

to the Wing, and has there been any? Would an Associate Membership benefit the Wing?

While we'no addressed the Haggis: I'll leave you with this thought.

O wad some Power the giftie gie us

To see oursels as ithers se us It wad frae monu a blunder free us,

An'foolish notion.

Oh, would some Power give us the gift To see ourselves as others see us. It would from many a blunder free us, And foolish notion

A belated Happy Robert Burns Day!

And Happy St. Valentines Day!

## The Catalina — Canso

he Consolidated PBY Catalina, known as the Canso in the RCAF, is an American flying boat, and later an amphibious aircraft of the 1930s and 1940s. It was one of the most widely used seaplanes of World War II. Catalinas served with every branch of the United States Armed Forces and in the air forces and navies of many other nations.

During World War II, PBYs were used in antisubmarine warfare, patrol bombing, convoy escort, search and rescue missions (especially air-sea rescue), and cargo transport. The PBY was the most numerous aircraft of its kind, and the last military PBYs served until the 1980s. Nearly 80 years after its first flight, the aircraft continues to fly as a water bomber (or airtanker) in aerial firefighting operations in some parts of the world.

The Catalina first flew in 1935 and was produced until locatie any Italian vessels still in Canadian waters. built by Boeing Canada for the RAF and RCAF (240 over the freighter, as if making an attack. The panbuilt) and the PBV-1A built by Canadian Vickers, icked captain ran his vessel aground against a sand-(380 in all: 150 for the RCAF and 150 for the USAAF.

The Catalina/Canso had a crew of 10: pilot, coopilot, bow turret gunner, flight engineer, radio operator, 2 waist gunners and a ventral gunner.

The aircraft was powered by two Pratt & Whitney Twin Wasp radial engines. It had a maximum speed of 196 mph, cruised at 125 mph and had a range of 2,520 sm. It had three 30 cal guns and two 50 cals and could carry 4,000 pounds of bombs of depth

An RCAF Canso flown by Squadron Leader L.J. Birchall foiled Japanese plans to destroy the Royal Navy's Indian Ocean fleet on 4 April 1942 when it detected the Japanese carrier fleet approaching Ceylon (Sri Lanka).

In 1939, F/O Birchall flew convoy and anti-submarine patrols from Nova Scotia, flying with No. 5 Squadron which was equipped with the Supermarine Stranraer.

On June 10, 1940, Birchall was responsible for the capture of an Italian merchant ship, the Capo Nola, in the Gulf of Saint Lawrence, hours after Canada

declared war on Italy. Birchall had been assigned to 1945, after 3,305 were built, including 629 in Canada Finding the Capo Nola, Birchall had been informed of and 24 in Russia. Canada's versions were the PB2B-2 the declaration of war by radio and made a low pass bank. Birchall then touched down nearby and waited until R.C.N. vessels reached the scene. The Capo *Nola's* crew were the first Italian prisoners taken by the Allies during the war.
