

The work on the T-33 at the RCAF Centennial Parkette is now 98% complete thanks to the volunteers to worked on the aircraft last Saturday. The T-33 looks like a million dollars now with its new "RCAF 1965 era" decals in place, the colourful wraps on its tip-tanks and elsewhere, and the tail cap. It just needs a few more pieces and panels installed and it will be complete. Thankyou to everyone who has been working on this project.

Please see the attached pictures.

Per Ardua Ad Astra - Bill Sergeant.
